DETAILED ACTION

EXAMINER'S AMENDMENT

The application has been amended as follows:

Claim 28 [Currently Amended] The method of claim 27 25 further comprising abutting a stop of the support assembly against the faceplate, the lip of the support defining the stop, the stop substantially perpendicular to the first plane defined by the support, and the stop limiting rotation of the support relative to the faceplate when at least one cable exerts a load on the support.

Election/Restrictions

The applicant correctly points out a typographical error in the listing of the claims in the Election/Restrictions section. Correction has been made so that the examined claims are 1-4,6-12,14-20,22-24, 30 and 32.

Claims 1-4,6-12,14-20,22-24, 30 and 32 directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 25,26,28 and 31, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action**

Art Unit: 2841

mailed on 03/30/06 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1-4,6-12,14-20,22-26,28 and 30-32 are allowed.

The following is an examiner's statement of reasons for allowance: There is simply no evidence in the prior art teaching that the connection portion is configured to coupled with a circuit board of the circuit board assembly along with the entire claimed combination, furthermore there is no evidence making this modification obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
